Personal Statement:

Ever since I picked up a softball, I knew all I wanted to do was play and not look back. I always strive to be a better me. Not just softball and my athletics, but in my academics and being a good person. Every time I step on the field I use it to do the best of my ability to play the game I LOVE, "BALLS OUT". This game has given me the opportunity to travel, make lifelong friendships, develop communication and leadership skills, both mental and physical strength, and the lists goes on. My dream is to compete against the best of the best at the highest level possible and I'll continue to work until I achieve this goal
